We're Peasy

It's short for Property Easy

Building or renovating a house is already complicated enough. With big decisions to make ranging from which walls to knock down to what color to paint the existing ones, the last thing you want to do is deal with the banks. That's where we come in.

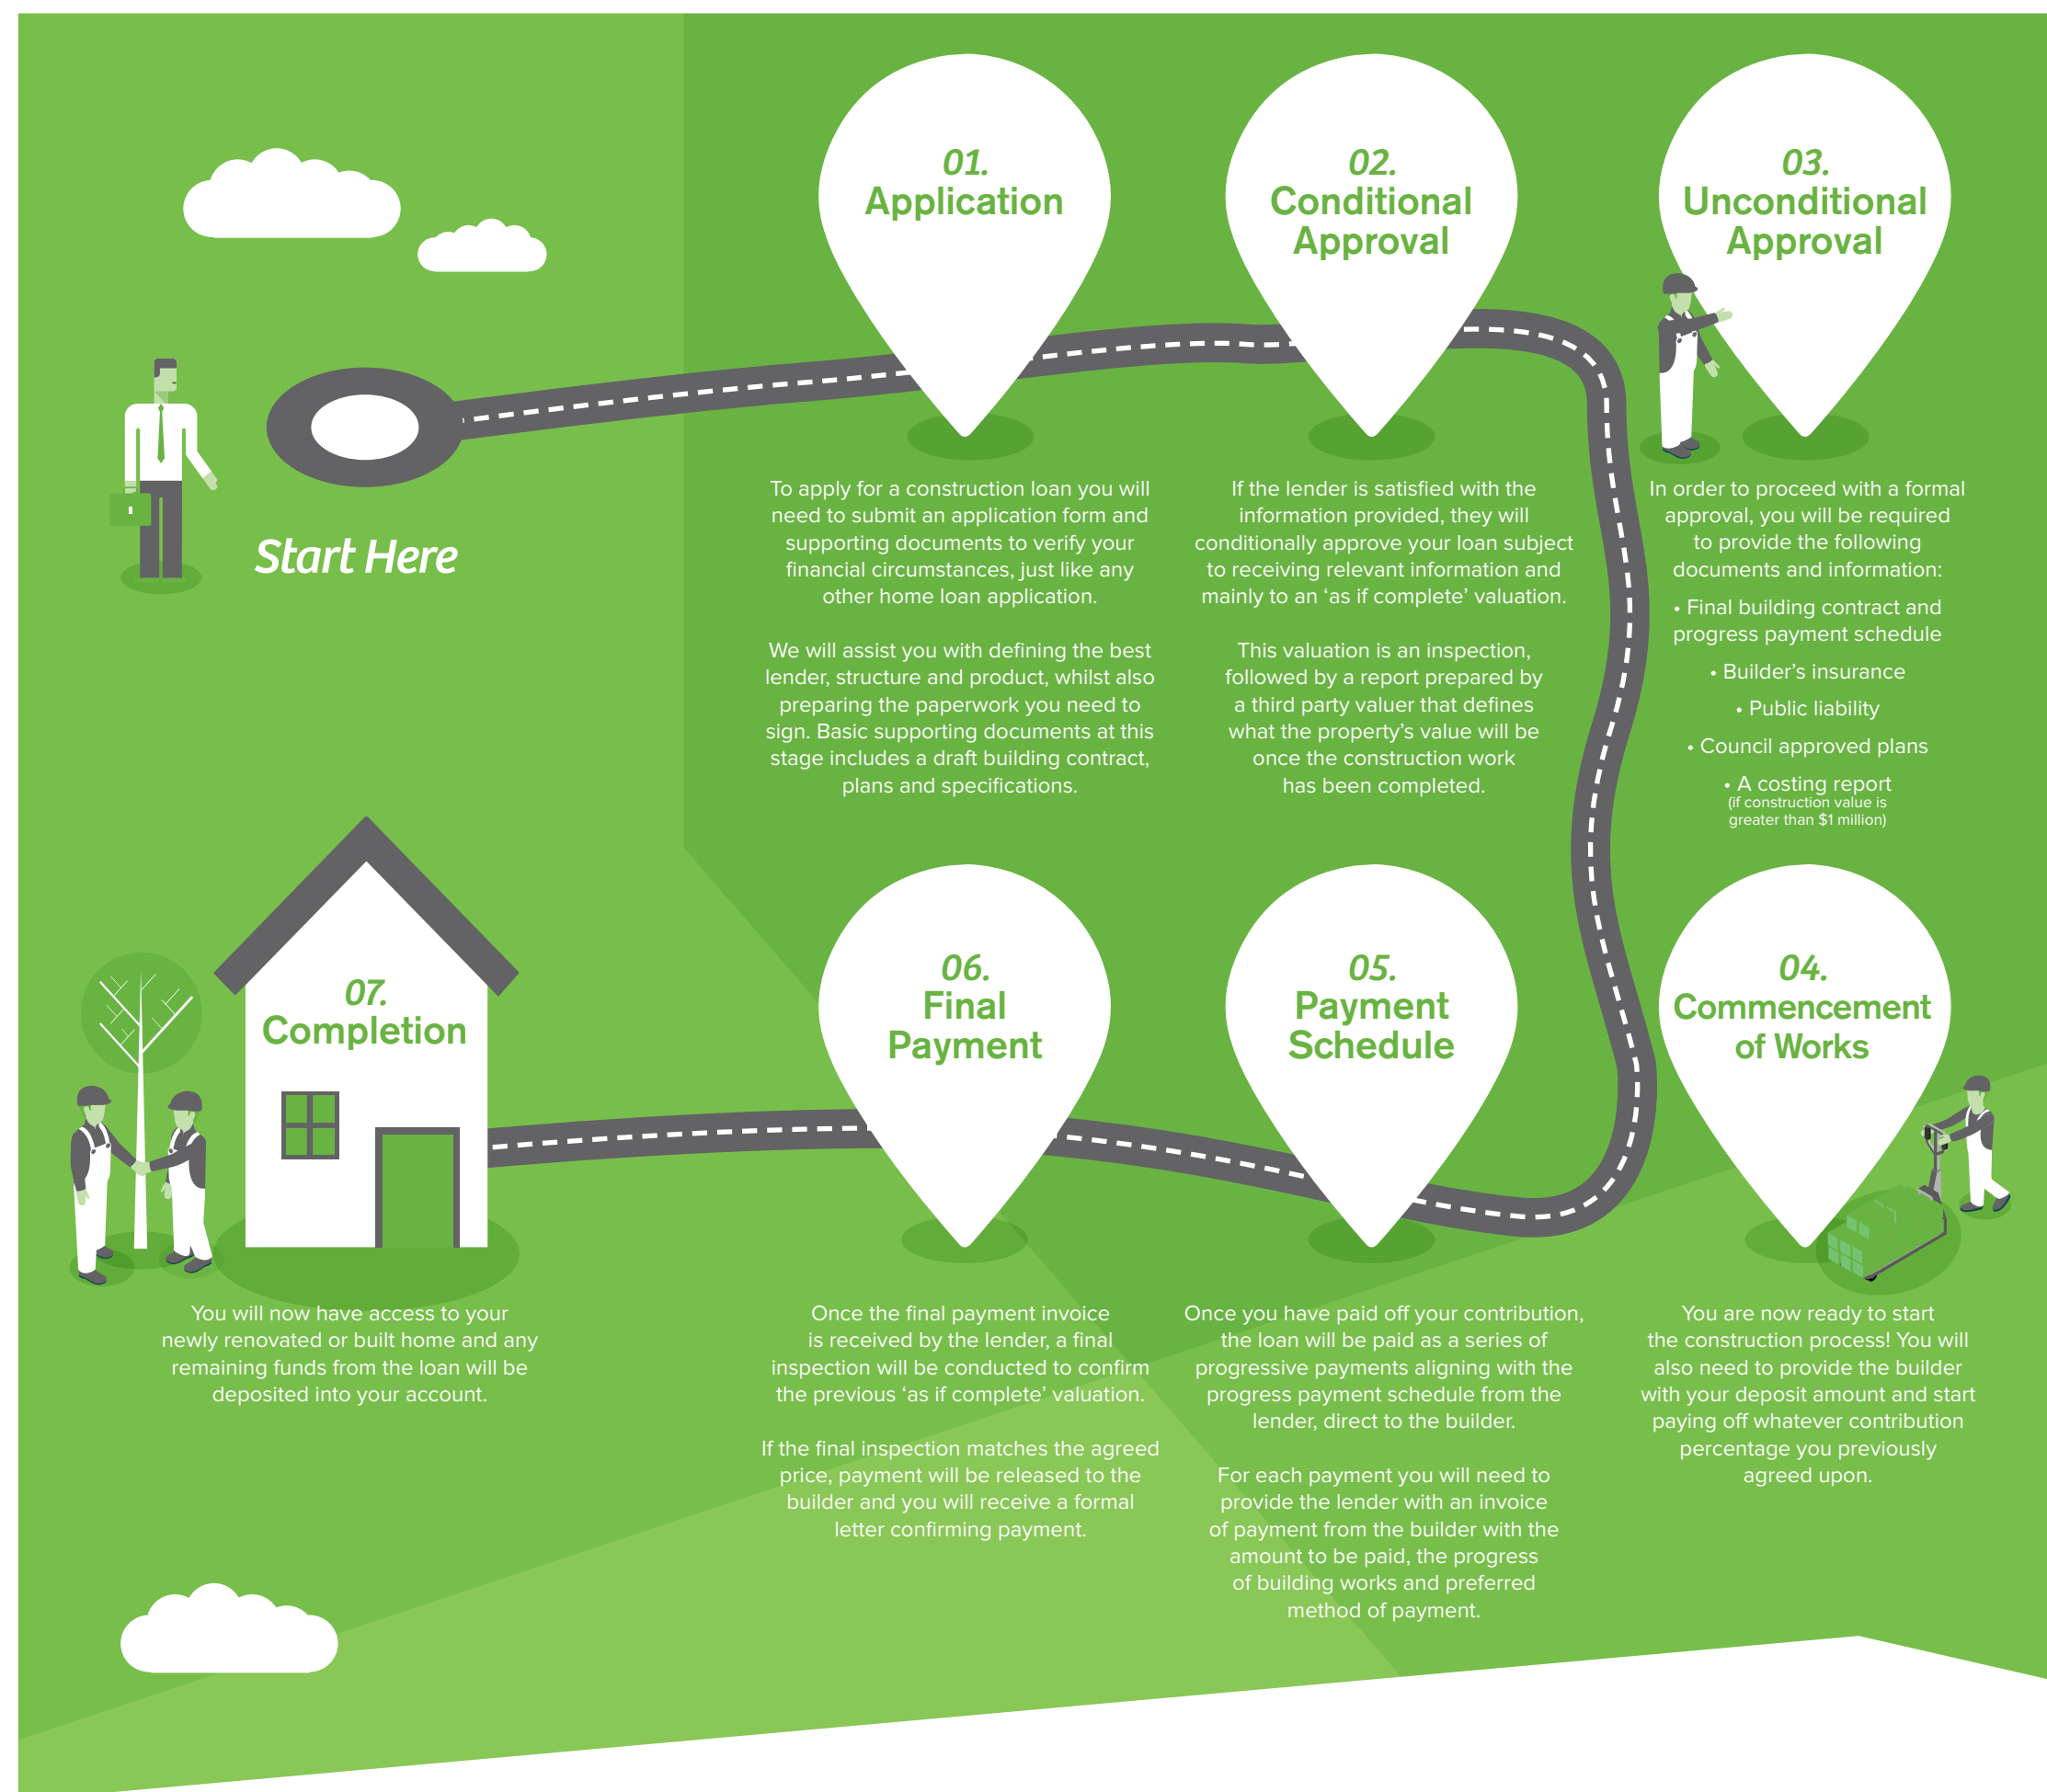

Whether renovating an existing property or building from scratch, you may need a loan. A construction loan is a loan based on the potential value of your home on completion. We do the research, handle the leg work, compare the lenders and loans and everyone's favourite - MATHS!

With access to more than 40 lenders and over 1400 products, we'll find the right product and lender for you. We read the fine print, manage the banks, do the paperwork, organise the valuation, help get the documentation signed and deliver a solution that works for you.

To us, it's a well worn path and we'll be with you to guide you every step of the way. For more information, see our process guide on the left or get in touch.

What do you mean it's *free*?

That's right. Zero. Nada. Zilch.

We take our fee from the bank, so our advice doesn't cost you a thing. Now we think that's worth something.

We're here to help answer any questions you may have.

Even if you think you might not be ready, a quick conversation with one of our brokers will help you get your finances on track. From budget tips to giving you a target for the deposit you need to get started.

Give us a call! The most important part to buying a home is making sure you can afford it.

We don't charge for our advice, so if you give us a call we can talk you through the process.
